Date: 16/4/2018

Dear Ms Pooja Ronak Desai:

We are pleased to confirm you have been selected to work for GroceriStar company as Frontend Developer(React.js) + QA intern

Great opportunity to take part in unique Ukrainian product development.

Job duties [are to]:

- Build rich React applications with different state-management paradigms.
 - Work on cutting-edge technologies and become an industry leader.
 - Push your code to millions of users every day.
 - Improve your skills and learn from top-notch engineers.
 - Tackle tough problems and find creative ways to solve them.
 - Write TDD and clean code.
-
- Evaluate and test new or modified products and applications, to verify that they function according to user requirements and to established guidelines.
 - Review requirements and develop test cases based on those requirements; Create, update and execute test plans and test cases.
 - Work proactively in coordination with the development team for the troubleshooting and resolving of issues in a timely manner.
 - Present ideas on system improvements based on hands on experience.
 - Thoroughly report test results and manage follow up including fix verification, updating bug tracking database etc.
 - Contribute to the design, documentation, implementation and maintenance of test environments and test systems and processes.
 - Contribute to the project hand-over to the support and operations teams.

Requirements

- Experience in writing applications with server side rendering
 - Experience in writing isomorphic applications
 - Experience with Git flow and GitHub, Asana, Trello, Slack
 - Development of Front-end solutions for production projects (mobile, desktop).
 - Improvement of the overall code base of the project (the project core)
-
- Good communication and presentation skills (verbal and written); Ability to work well with people from different disciplines with varying degrees of technical experience
 - Persuasive and able to stand by own ideas
 - Able to prioritize tickets based on the business needs
 - Analysis and synthesis abilities
 - Attention to details, persistence, “test to break” attitude
 - Troubleshooting and problem-solving skills
 - Good organizational skills and able to manage multiple projects simultaneously; able to multitask and meet deadlines in a fast-paced environment
 - Autonomy, ability to work with minimal guidance
 - Open to changes and self-improvement
 - Creativity, initiative, curiosity.

We are delighted to send you this offer to be approved and signed from you in order to start the job from "May 18th, 2018"

We look forward to join our company in order to work with you. After finishing our collaboration you'll receive a recommendation letter, where i'll explain what was done during your internship

Sincerely,
Arthur Tkachenko
